VOLUME CVI.---NO 149. ALEXANDRIA, VA., SATURDAY EVENING, JUNE 24, 1905. PRICE 2 CENTS.

BAD STOMACH MAKES BAD BLOOD.

You can't make sweet butter in a foul churn. Every farmer's wife knows this. Your stomach churns and digests the food you eat, and if foul, torpid or out of order, your whole system suffers from blood poisoning. You will have foul breath, coated tongue, bad taste, poor appetite and a whole train of disagreeable symptoms. Dr. Pierce's Golden Medical Discovery, which is not a beverage composed of whisky or alcohol, being entirely free from intoxicants, is a great regulator and invigorator of the Stomach, Liver and Bowels.

"About a year ago I was ill with blood poisoning," writes Miss Evaline Louis, of 69 Walter Street, Buffalo, N. Y. "I had what seemed to be a small cold sore on my lip. It became very angry in appearance and began to spread until it nearly covered my face. I was a frightful sight and could not go outside the house because of my appearance. I used a blood medicine which did not give me any relief. Then I began to take your 'Golden Medical Discovery.' I was greatly benefited with the first bottle and after taking the second bottle was completely cured. The erysipelatous eruption disappeared and my blood was cleansed. My complexion is clear and fresh and I have felt better this year than I did for some time before. Dr. Pierce's Golden Medical Discovery is certainly a most remarkable medicine."

Don't accept a substitute for a medicine which performs such cures and which has a uniformly successful record of nearly forty years to its credit. It's an insult to your intelligence for a dealer to try by over-persuasion to palm off upon you in its stead some inferior article with no record to back it up. You know what you want; it is his business to meet that want.

$50,000 GIVEN AWAY, in copies of The People's Common Sense Medical Adviser, a book that sold to the extent of 500,000 copies a few years ago, at $1.50 per copy. Last year we gave away 250,000 worth of these invaluable books. This year we shall give away $50,000 worth of them. Will you share in this benefit? If so, send only 21 one-cent stamps to cover cost of mailing only, for book in stiff paper covers, or 31 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Constipation although a little ill begets big ones if neglected. Dr. Pierce's Pellets cures constipation.

COMPETENT JUDGES.

Beauty Doctors Endorse Herpicide.

Women who make a business of beautifying other women come pretty near knowing what will bring about the best results. Here are letters from two, concerning Herpicide:

"I can recommend Newbro's "Herpicide," as it stopped my hair from falling out; and, as a dressing it has no superior.

"(Signed.) Bertha A. Trullinger, "Complexion Specialist, "29½ Morrison St., Portland, Ore."

"After using one bottle of "Herpicide" my hair has stopped falling out, and my scalp is entirely free from dandruff.

"(Signed.) Grace Dodge, "Beauty Doctor, "195 Sixth St., Portland, Ore."

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured. MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me. D. KAUBLE, Nevada, O.

WAR IN THE EAST.

The following official dispatch has been received in Tokio from the headquarters of the Japanese armies in Manchuria:

"In the vicinity of Yingecheng June 21, 1,000 of the enemy's infantry, pressing our scouts, advanced, and when they reached Hsiangyangcheu, 10 miles southeast of Wankautzkeau, our forces repulsed them with heavy loss and pursued them to the vicinity of Weiyuanpaomen. After our force which occupied Yankmulidtzu June 19 had completed their mission they returned. The enemy, consisting of three battalions and four squadrons, with 12 guns, advanced through the eastern districts of the Kirin road and moved southward June 21. From 11:30 in the morning his infantry gradually appeared on the heights between Chapengan and Lichiatun and his artillery posted on the heights of Lienhuachies shelled the northern heights of Nautchenday. Our forces after a few hours' engagement assaulted this offensive line and completely repulsed the enemy, captured the heights and pursued him. Otherwise the situation is unchanged."

A dispatch from Gunshu Pass, Manchuria, says that the Japanese are no longer pressing the Russians south and doubt is now entertained as to whether the weak offensive is the precursor of a big battle of diplomatic manuevers. Belief in the prompt conclusion of peace is weakening. The heat is intolerable. Even the nights afford little relief.

Advices from St. Petersburg say that there is not likely to be any further move in the direction of an armistice until the plenipotentiaries are appointed and the time of their meeting is definitely fixed. Japan seems unwilling to discuss any new issue until these two questions are settled. This does not necessarily mean that all hope of arranging a suspension of hostilities before the meeting has disappeared, but as an indication of Japan's mood it increases the doubt as to whether she could be induced to relinquish temporarily the strategic advantages which she evidently believes she enjoys. Indeed, it might raise the suspicion of sparring for time until Field Marshal Oyama has developed his offensive and is actually in process of delivering his blow, when Japan could easily plead that it was too late. The delay in settling the matter of the plenipotentiaries is, therefore, all the more deplored by those desiring to avoid further bloodshed. Both countries seem perfectly willing to name negotiators, but each evidently desires the other to show its hand first.

STORMS IN VIRGINIA.

A cloudburst deluged the streets of Richmond yesterday afternoon. Gutters and sewers were unable to carry off the flood, and the water backed over the sidewalks into the yards. Streets and stores were flooded. The lighting during the downpour was terrific. Lightning struck in several places in the city, and much damage was done to electric light and telephone wires. The flagpole on the Senate wing of the Capitol was knocked into splinters, and the steeples of the Broad Street Methodist and Grace Street Presbyterian churches were damaged. Several churches in Manchester were also damaged by lightning. Two horses were killed, eight street cars disabled, three cables burned in two, and 400 chickens, which were in a cellar, drowned. J. F. Baldwin, who was on a telephone pole, was knocked off by lightning, breaking his arm and leg. An inch and a quarter of rain fell.

While beneath a tree in Chesterfield county yesterday to avoid a shower, three boys—Wyatt Carneal and Thomas and Sanford Durrette—were knocked senseless by a bolt of lightning, which split the tree to pieces. Two of the boys revived in a few minutes, but Sanford Durrette was unconscious three hours. He will recover.

For the third time in as many days Luray was visited yesterday evening between 5 and 6 o'clock by another destructive rain storm, adding additional destruction to the havoc wrought by the storms of Thursday and the day before. The gardeners and farmers have thus sustained another heavy loss by badly washed lands.

Allowed to Retain Button.

All the obstacles which have prevented an ending of the teamsters' strike in Chicago appear to have been eliminated, and indications last night are that unless something unforeseen develops the strike will cease within a short time.

At a meeting yesterday between a committee of strikers and J. V. Farwell, jr., for the Employers' Association, the question of a conspicuous display of the union button, which has been opposed by the employers, was settled. This question is to be left to the employers individually, the association agreeing to withdraw its demand for the elimination of the union emblem. As the button has been a stumbling block during the latest efforts to reach a peaceable settlement of the difficulty, it is the general belief that the trouble is drawing to a close as all the other terms of settlement made by the employers have been tentatively accepted by the representatives of the strikers.

The details of settlement must yet be agreed to by the general committee of the strikers and finally submitted to a vote of all strikers. President Shea says he is satisfied with the present terms of settlement.

NEWBRO'S HERPICIDE

VACATION TIME. Vacation time should bring rest, recreation and comfort; and comfort of the solid and pleasing variety means no high collar, no stiff hat and no—itching scalp. It is for this last discomfort that Newbro's Herpicide becomes a summer necessity, as it stops itching of the scalp and Prickly Heat almost instantly. Take Herpicide with you on your vacation.

SCALP WARNING. Itching of the scalp is not so much a punishment for past neglect as it is a warning for the future. It shows, almost conclusively, that the vine-like, microbic growth that causes dandruff, itching scalp and falling hair has entered the Sebaceous glands and unless this growth is stopped and kept out of the scalp, baldness will follow.

DANDRUFF IS CONTAGEOUS. The discovery, by Prof. Unn (ask your doctor about him) that dandruff is a highly contagious disease, is now recognized by dermatologists everywhere. This important discovery, not only proves the worthlessness of "Hair growers," but it offers an opportunity for scientific hair preservation, in the use of Newbro's Herpicide, the original remedy that "kills the dandruff germ."

WILL NOT GROW HAIR. Newbro's Herpicide is a "Hair-Saver;" it will not grow hair—nature does this—but by destroying the enemies of hair health, it enables the hair to grow as nature intended—except in chronic baldness. Save your hair with Herpicide. Wonderful results follow its use.

HOT WEATHER TROUBLES. During hot weather the minute sudatory glands of the scalp are called upon to perform an extra amount of labor. The perspiration that exudes in increased quantities must be handled promptly as it carries out poisonous and refuse matter that would otherwise clog up the pores of the scalp. Incomplete elimination of refuse matter produces a hot and feverish condition of the scalp, familiarly known as Prickly Heat, for which Herpicide gives immediate relief. Ladies will find Herpicide indispensible. It contains no grease, will not stain or dye. It is an exquisite hair dressing that COOLS, COMFORTS and DELIGHTS.

Destroy the cause---you remove the effect.

Other Remedies Failed.

I have used the sample bottle of Herpicide and found it to be the best hair preparation that I ever tried, and I think I have tried very near all kinds. None of them would clean my head of dandruff but Herpicide.

Eminence, Ky. Signed. JAS. H. MORGAN.

Recommends It To All.

I find your Herpicide to do all you claim for it. It has cleaned my head nicely, and stopped my hair from falling, and I can see new hair coming in. I am well pleased with it, and will and do recommend it to all.

Torture of a Preacher.

The story of the torture of Rev. O. D. Moore, pastor of the Baptist church, of Harpersville, N. Y., will interest you. He says: "I suffered agonies, because of a persistent cough, resulting from the grip. I had to sleep sitting up in bed. I tried many remedies, without relief, until I took Dr. King's New Discovery for Consumption Coughs and Colds, which entirely cured my cough, and saved me from consumption." A grand cure for diseased conditions of Throat and Lungs. At E. S. Leadbeater & Sons, druggists; price 50c and $1.00, guaranteed. Trial bottle free.

Found a Cure for Dyspepsia.

Mrs. S. Lindsay, of Fort William, Ontario, Canada, who was suffering quite a number of years from dyspepsia and great pains in the stomach, was advised by her druggist to take Chamberlain's Stomach and Liver Tab ets. She did so and says, "I find that they have done me a great deal of good. I have never had any suffering since I began using them." If troubled with dyspepsia or indigestion why not take these Tablets, get well and stay well? For sale by Gibson & Timberman and W. F. Creighton & Co.

Quality vs. Quantity.

Hard muscles and strong body do not depend on the quantity of food you eat, but on its perfect digestion and proper assimilation. When you take Kodol Dyspesia Cure your system gets all the nourishment out of all the food you eat. It digests what you eat regardless of the condition of the stomach and conveys the nutrient properities to the blood and tissues. This builds up and strengthens the entire system. Kodol cures Indigestion, Dyspepsia, Belching, Sour Stomach, Weak Heart, etc. Sold by W. F. Creighton, 401 King street, and corner Queen and Patrick.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

SATURDAY EVENING, JUNE 24, 1905.

FOLLOWING the recent Corporation Commission scandal comes that of the public school register matter in which the secretary of the State Board of Education and the principal of the Richmond High School confessed to having given false testimony in the recent investigation and have otherwise brought discredit upon themselves and the positions they occupied. We heartily concur with the Lynchburg News which says:

The development in the school register inquiry at Richmond by the State Board of Education amounts to a painful revelation of collusion and criminal deception on the part of two trusted school officials, both of whom have wrecked their lives by intentional violation of the law to begin with, persistent suppression of the truth for a long series of years and down-right mendacity at the end. Mr. McGilvray not only terminates his candidacy for Superintendent of Public Instruction in disgrace, but Mr. Thomas, principal of the Richmond High School, ends his career as a teacher in dishonor. It is a sad and scandalous spectacle.

AS AN illustration of the remarkable manner in which the business of the Equitable Life Assurance Society was conducted, attention is called to the sensational discovery just made during the investigation of the affairs of that society that a man who had been dead for thirteen months and three others who had long severed their connection with the society were still on the payroll. This discovery was made through a study of the report of Superintendent of Insurance Hendricks. Included in the report is the salary list for the year 1905. On this list appears the name of E. W. Lambert, chief medical director, and the salary of the office is set down at $25,000 a year. Inquiry at the Equitable offices disclosed the fact that Mr. Lambert had been dead for thirteen months. The three who had long since severed their connections with the society were still receiving, according to the salary list, salaries of $2,000, $1,500 and $3,500 respectively.

THERE was another meeting of the Board of Police Commissioners last night at which another movement was inaugurated toward reorganizing the police force as well as examining into the presentment recently made by the grand jury concerning the organization. While the members of the board doubtless mean well, many people await with interest the outcome of the plan proposed for the betterment of the condition of the force. If the panacea consists of a multiplicity of officers they may effect a cure.

THE State Board of Education having been increased in numbers forthwith proceeded to create new offices and have divided the State into five sub-divisions with an inspector in each at a salary of $1,500 per inspector. This money comes out of the school fund and there is little reason to believe that the inspectors' supervision over the present superintendents can accomplish any good. This seems to be the era of multiplication of officers.

TODAY'S DISPATCHES from Warsaw represent a state of anarchy as existing in that portion of Poland. The streets of some of the cities have been turned into battle grounds between strikers, policemen and soldiers, and peaceable people are forced to remain indoors. The troubles are spreading rapidly and, as usual, the disorderly elements are being egged on by social democrats.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., June 24.

Secretary Taft today received a call from Senor Enrique Cortez, a confidential agent from President Reyes of Colombia, whose special mission has to do with the resumption of friendly relations between the republic of Panama and Colombia, of which latter country the Isthmus of Panama was formerly a part. Ever since Panama asserted her independence in November, 1903, her relations with Colombia have been strained. Gradually a more friendly feeling has been growing and about the only obstacle now in the way of the establishment of diplomatic negotiations between the two republics is a dispute between them as to whether or not Panama should assume any part of the foreign debt of Colombia. This debt was assumed at the time when Panama was one of the chief assets of Colombia and it is asserted that part of the money was spent in Panama and accured to the benefit or what is now the isthmian republic. Panama, it is said, is willing to take over her share of this debt but there is a considerable difference of opinion as to the amount. Senor Cortez talked over this question generally with Secretary Taft but did not get down to details. An arrangement was made for another conference next Thursday with the secretary at which Senor Mendoza, the new minister from Colombia, will also be present.

Official announcement was made today from the White House that Assistant Secretary of State, F. B. Loomis, has been appointed special ambassador of the United States to receive the remains of John Paul Jones from the French government. The designation of Mr. Loomis as special ambassador for the United States at the transfer of the body of John Paul Jones is generally believed here to be in the nature of a partial compensation on account of his recent experiences in connection with the Bowen charges, and also as evidence of the fact that he still enjoys the confidence of the administration. Whether or not Mr. Loomis has received a commission for any additional work of a diplomatic character while in Europe has not been divulged. The official announcement of his mission in France was not made until after he had sailed this morning, it having been generally understood that he was going merely on vacation.

The President will issue an executive order calling the board of consulting engineers for the Panama canal to hold its first meeting in Washington, Sept. 1. The Panama Commission will be expected to turn over to the board at that time all the plans, maps etc., in its possession, and the engineers will proceed at once to enter upon their investigation as to the most feasible plan for constructing the great waterway, whether to make it a lock or sea-level canal.

Civil Governor Magoon of the isthmian canal zone reports to the War Department that there have been four new cases of yellow fever, with one death and four recoveries called to his attention since his last report of yesterday's date.

Chief Engineer John F. Wallace, of the Panama Canal Commission, has received an offer from an important corporation in this country that carries with it a salary of $60,000 a year. This was the real reason for his sudden departure from the isthmus and his arrival in New York on Thursday. Although he has not as yet resigned his position as chief engineer, it may be stated with authority that, in view of this offer, Mr. Wallace is seriously considering such a course. His present salary is $25,000.

District Attorney Beach says that notwithstanding the rumored vote in the Crawford case of 9 to 3 for acquittal, which is generally accepted as being correct, he will try to have Crawford placed on trial again in the fall.

The Label Case.

The New Jersey Court of Errors and Appeals in the case of the Cigarmakers' International Union of America against William H. Goldberg has set aside as unconstitutional the tenth section of the law of 1898 respecting labels and trademarks.

The law provided a penalty of from $200 to $500 to be recovered by the party injured by the infringement of any label or trademark. The court holds that this leaves to the party inured the determination of the extent of the injury within the $200 or $500 limitation. This, the court holds, would be to that extent the taking of private property without due process of law, and for that reason the act is declared unconstitutional.

This is a victory for Goldberg and a defeat for the Cigarmakers' Union, which brought suit for the alleged misuse of union labels.

Church Members in Jail.

Eleven members of the congregation of Burning Bush Church, the majority of them being women and girls, were placed in prison in Danville yesterday morning, because of their refusal to pay fines imposed upon them by the mayor for creating a disturbances on the street Thursday night, after having refused the offer of the mayor to remit the fines if they would give him their assurance that the street demonstration would cease.

The pastor of the church, Rev. Monson T. Dye, was jailed several days ago upon a similar charge, and is still in jail. He refused to allow his fine to be paid by friends.

Many of those arrested have families dependent upon them for a living, but they say they will risk all, even their lives, rather than compromise with the mayor. They will go to jail under the belief that they are martyrs to their faith.

A Curious Case.

After three months' experience on the Bowery as a waiter in Raines law hotels in New York, where he served beer to the lowest of men and women, and as an employee in cheap restaurants as a dishwasher and general housecleaner, Marathon Montrose Ramsey, a professor in Leland Stanford University, a fellow of Johns Hopkins University, and a graduate of universities in Seville and Rome, was yesterday committed by Magistrate Baker, in Jefferson Market Police Court, to the psychopathic ward in Bellevue Hospital for observation. It is believed that Professor Ramsey is suffering from the effects of overstudy and family troubles. He was found Thursday near the Produce Exchange Building by Detective Sergeant Fogarty, who recognized him from a description sent to police headquarters by relatives of Ramsey in Baltimore, who have been seeking him.

England Apprehensive.

The British House of Commons yesterday afternoon authorized the raising of a loan not exceeding $100,000,000, with the revenue of India as security, for the construction, extension and equipment of the railways of India.

Secretary for India Brodrick explained that the money was required to enable the government to take over the Bombay-Baroda Railway and to extend the programme for railway building through out the country. It is not proposed to issue the loan all at once.

General Lord Kitchener, commander-in-chief of the British forces in India, seems to regard as inevitable a great struggle with Russia for the possession of India and to believe that the existing arrangements for the defense of the Indian Empire are altogether obsolete and ineffective.

The case must now stand for trial before a single justice of the Supreme Court.

Public School Matters.

Secretary Frank P. Brent, of the Department of Education, who has been mentioned as a candidate for Superintendent of Public Instruction, says he will not run under any circumstances.

The Richmond city School Board last night elected James C. Harwood to succeed Julian P. Thomas as principal of the Richmond High School.

The State Board of Education has appointed a subcommittee, consisting of Messrs. Glass, West and Bowles, to procure specimens of school registers. A new one will be selected to take the place of the Thomas book, which has been selling for 75 cents. It probably will be sold for a third of that sum.

As heretofore stated the State Board of Education has divided the State into five circuits and selected inspectors therefore. The five inspectors are to constitute the State board of examiners and inspectors, a tribunal constituted under the laws of the State, and the members are to submit annual reports to the State board and to consider said report any special matter assigned to them. Opera House Destroyed by Fire.

Red Bank, N. J., June 25.—The Red Bank opera house was destroyed by fire this morning, and it is rumored that the watchman, John Conners, is missing and his body is probably in the ruins. Owing to the fact that rain had wet the roofs of adjoining houses, the flames were confined to the opera house. The guests in the Central Hotel, next door to the theatre, where badly scared and all of them including 40 members of the Boston Ideal Opera Company, who were giving dress rehearsals in the opera house before the opening of the summer season at Asbury Park, rushed to the street in scanty attire. No one, however, was injured. All the costumes, scenery, and properties of the Ideal Company were consumed. The fire is supposed to have originated from a defective electric light wire.

Crooks Stole His Diamonds.

T. R. Healms, a Seaboard Air Line Railway watch examiner, residing in Hamlet, N. C., was the victim of a unique swindle in Portsmouth, Va., yesterday afternoon. Bedecked with several Pythian and Odd Fellows emblems he was approached by three 'glad-hand" men in the Seaboard station as he was prepared to leave for his home, and a trolley to Battery Park was proposed. Healms consented, and while en route one of the party asked to be allowed to examine two diamond rings, valued at $300, which Healms purchased at Tiffaney's, in New York, a few days ago. On securing possession of the ston es the strangers jumped from the car and disappeared.

Today's Telegraphic News

A Reign of Terror.

Warsaw, June 24.—The reign of terror which has turned Lodz into a slaughter pen in the conflict which has raged between troops and the working people continues. Today reports show a veritable pitched battle is being fought in the streets. A call has been sent to the governor general here for assistance and three regiments of infantry and a cavalry force were dispatched on a special train for the scene of the disorders.

The fighting continued all night, Cossacks and dragoons frequently charging the workingmen who were shielded behind barricades. The workingmen defended themselves and there was a rapid exchange of shots at every attack.

The workingmen were led by social democrats and members of the Jewish bund who were determined to get revenge for the thirty-seven socialists who were killed in the demonstration which was attacked by the troops on Wednesday. The rioters responded to every volley of the soldiers with revolvers and rifles.

The rioters resorted to many tricks to harass the troops. Men were stationed in doorways and in upper windows to fire on the soldiers, and many of the troops were picked off in this way. Other men were sent to the roofs of buildings and poured vitriol on the heads of the soldiers in the streets below. The casualties yesterday are variously estimated, some of the figures being placed as high as 2,000.

The fighting this morning became even more general than it was yesterday. In all the principal streets there were conflicts between soldiers and the armed rioters. Factories and shops have been closed and the people are keeping close to their homes so that the fighting forces have the streets to themselves. No newspapers appeared this morning, and no tram cars are running. Carriage service has also been abolished so that the only way to get about the city is to walk.

The call for assistance came to the governor general here early this morning, the commandant of the troops now in Lodz notifying his superior that the force at his command is utterly inadequate to deal with the situation. It was then that three regiments of infantry and the cavalry force were hurried off toward Lodz.

The disturbances in Lodz have excited the people all over this part of the country, and may lead to disorders in other cities. Grave fears are expressed lest there may be an outbreak in Warsaw and trouble may be precipitated at any moment. The Polish socialist party has issued a proclamation calling on the workmen to inaugurate a general strike owing to the death sentence passed upon Stanislaus Okschja for throwing a bomb into the police station, here, on March 23d.

A late report which has just reached here from Lodz says that Col. Andrejeff was severely injured in leading a charge of the troops on the rioters.

Late yesterday afternoon, two bombs were thrown into the barracks of the troops killing and injuring twenty men. There are a number of dead bodies lying in the streets where fighting has occurred, although the military is working hard to remove all the victims and bury them.

Workmen throughout the city today responded to the call of the Polish socialists for a general strike and business is suspended as a result. As yet no disturbances have occurred in this city.

The causalties at Lodz as reported at noon today are 18 killed and wounded added to yesterday's alarming total. So far as is known 180 persons were killed outright in yesterday's fighting, while forty-one more who received wounds have died since. Over 300 persons received only slight wounds. As the returns become more complete they show that the massacre yesterday was worse than that in St. Petersburg on Red Sunday. Evidences of the blooshed are still to be seen on the streets. The hospitals are crowded with the wounded and owing to an insufficiency of the number of beds many of the patients are lying on the floors. Many injured could not secure admission to the hospitals and their condition is terrible, as they have been unable to secure medical attention. This morning an attempt was made by rioters to fire the government offices, but a strong force of soldiers prevented this.

The rioting has spread to the town of Chenstav, Poland. The strikers there organized a demonstration and paraded the streets, carrying red flags and singing revolutionary songs. They refused to obey when called upon to disperse, and Cossacks charged them. The casualties resulting numbered twenty-three killed and 85 wounded.

The bakers have joined the strike and a bread famine is threatened. A report from Lodz, received at 3 o'clock, says the number killed today is 33. Official reports of the number killed yesterday give the figures at 171.

Killed by Automobile Accidents.

Marblehead, Mass., June 24.—Charles T. Estabrook, a well known member of the Boston yacht club, was almost instantly killed and his three companions severely but not seriously injured in an automobile accident which occurred at 10 o'clock last night, at the wharf of the Boston yacht club's house when the car owned and operated by Mr. Estabrook plunged from the wharf to the beach below, a sheer fall of 12 or 15 feet. The other occupants of the car were Mr. Frank Rhoades of West Roxbury, and two ladies, Misses Albina Bassett and Rose Lamoreaux, of Boston

New York, June 24.—A 30-horse power touring car containing seven persons and going at a high rate of speed, smashed into a trolley pole on Jerome avenue, near the gate of Woodlawn Cemetery shortly after midnight, and as a result one man is dead, another is near death, a third is seriously injured, while at least three others are badly hurt. The dead man is Paul Foster of the Commonwealth Hotel, Boston. While coming down Jerome avenue at a high rate of speed Dodge, the chaffeur, tried to make a turn but the tires did not hold, and the big car skidded and shot squarely at the pole with the speed of a projectile. Not a man in the auto had time to so much as turn in his seat before the crash came and they were hurled out on the road. Mr. Foster's skull was crushed in, and he died in a few minutes.

Wedding.

Paris, June 24.—Miss Beatrice Winans, daughter of Mr. and Mrs. Ross Winans, of Baltimore, was married today to Prince Henri de Bearn, secretary of the French Embassy, at St. Petersburg. The ceremony was performed in Saint Clotilde church, and among the guests were Ambassador and Mrs. Robert McCormick. Prince de Bearn, who claims the full title of Prince de Bearn et de Chalais, was formerly attache of the French Embassy in Washington. He is the head of the house of de Galard de Bearn, descending in direct line from Adalaric, Duke of Vasconie, in 1788. His family has played a prominent part at various times in French history. The right of the Prince de Bearn to the title of "de Chalais" has been disputed by the Prince Helie de Sagan.

Kaiser's Courtesy to Americans.

Kiel, June 24.—The partiality which Emperor William has displayed toward American visitors during the present festivities in connection with the Kiel regatta has aroused the jealousy of German magnates and yachting enthusiasts. At all the court dinners on the royal yacht, Hohenzollern, Americans have been shown the preference and have been honored in other ways. The Kaiser has consented to dine aboard the Nahma, R. W. Goelet's private yacht, and also with Cornelius Vanderbilt on board the North Star. Charlemagne Tower, the American Ambassador to Germany, Mr. Vanderbilt, Marshall Wilson, owner of the Atlantic, and others have been invited to sail with the Kaiser on board the Meteor III. during the race tomorrow.

Sailed for Europe.

New York, June 24.—Assistant Secretary of State Francis B. Loomis was a passenger on the American line steamer Philadelphia, which sailed today for Southampton, via Cherbourg. Mr. Loomis came aboard late and admitted that it was true that he was going to Paris for the Government to receive the remains of Admiral Paul Jones from the French authorities. "But," he is reported to have said, "that duty was designated to me after I had been ordered to Europe on an important mission, of state." What that mission was, and where he was going to transact it, Mr. Loomis would not state. He maintained an air of mystery while talking to the reporters and finally said that the nature of his visit to Europe would have to be given out at Washington.

Outbreak of the Mafia.

Rome, June 24.—Reports from the Island of Sicily say that a fresh outbreak of the Mafia, which is almost certain to be accompanied by a reign of terror, is feared there. Some time ago a wealthy and prominent resident of Coltanisetta by the name of Commendatore Giordano was murdered and the crime has been traced to members of the Mafia society. The local magistrate last night ordered the arrest of the mayor of Barzafranca, a prominent lawyer, and two priests, who are believed to be secret agents of the Mafia. It is feared that the Mafia will retaliate for these arrests by the usual secret but deadly methods of the organization. Both the prisoners were released.

France and Germany.

Paris, June 24.—The correspondent of the Publishers' Press has learned from an excellent source that before France sent her answer to Germany on the Moroccan question, she had ascertained that in case a conference is held, a majority of powers will support her contentions in regard to Morocco. This explains the acceptance by France "in principle" of the demand for a conference. The objections being raised by Germany to the form of the French note have been offered, it is said, in the hope that a pretext can be arranged during the time Germany's answer is being considered whereby Germany can proceed to deal direct with the Sultan of Morocco.

A Mother's Terrible Deed.

Findlay, O., June 24.—In a fit of despondency brought on by a long illness, Mrs. Alois Shields, aged 35, this morning, shot her 12-year-old daughter, Allie, and then turned the weapon upon herself. The mother's death was instantaneous, while the child lived about 20 minutes. Shields had arisen and was in the lower portion of the house when he heard the report of the revolver. He went upstairs and upon entering the room a horrible sight met his gaze. The wife and child were both lying in pools of blood with gaping wounds in their forheads. The bullets had entered in identically the same places.

Drove Off Russians.

Tokio, June 24.—Dispatches from the front announce that during the fighting in the Yengcheng district the Japanese drove off a force of 3,000 Russian infantry and cavalry, with three guns and occupied Nansancheng-Tsu. The Japanese lost two killed and fourteen wounded. The Russian losses are reported to be over 300.

Tokio, June 24.—A report from the Japanese commander at Port Arthur, received today, says that the Russian armored cruiser Bayan has been successfully floated.

Admiral Alexieff.

St. Petersburg, June 24.—Admiral Alexieff, who has just been appointed a member of the council of the empire, the vice royalty of the far East which he formerly held having been abolished by Imperial Ukase, in an interview today said that the Russian government is determined that it will not agree to the cession of any territory to Japan or to pay an indemnity, in the arrangement of peace terms. He also declared that Russia is decided not to give up the island of Saghalien.

Long Sentence.

Waco, Texas, June 24.—In the case of Lee Robertson, a negro, charged with attempted assault upon a white woman, the jury yesterday brought in the following verdict: "We find the defendant guilty as charged, and fix his punishment at confinement in the State prison at 1,001 years." The spectators in court cheered when the verdict was read.

New York Stock Market.

New York, June 24.—London has been a moderate seller since the opening putting out about 20,000 shares in all. There was some commission house selling in the first few minutes following the pressure from London and on selling from commission houses and by arbitrage brokers prices broke about ½ per cent from the opening. The West is a persistent buyer. This buying was reflected toward the end of the first hour in a firmer tone and a moderate improvement in prices. The market closed indifferent and irregular.

POLICE COMMISSIONERS.

Movement Toward Changing Charter—Chief, Three Sergeants and a Stationmaster Suggested—To Examine Into Presentment of Grand Jury.

An adjourned meeting of the Board of Police Commissioners was held last night. All the members were present:

When the board had been called to order Mr. Fisher called attention to the fact that two men who had outlived their day of usefulness had recently been deposed from the force. He now thought that the time had come when a new chief should be chosen for similar reasons. If the force should be reorganized, and the trouble now existing could be traced to the head the matter could be rectified. He saw no reason for increasing the number of policemen. He moved to dispense with the present chief and go into the election of his successor.

Mr. Graham said he had recently talked with several gentlemen concerning the present status of the force, among them the Judge of the Corporation Court. The latter had expressed himself as glad that a movement was in progress toward bettering the police force. Mr. Graham said the plan suggested by Mayor Paff at the last meeting of the board appealed to him as the best at this time. There was in the community an impression that the policemen were inefficient, while no specific charges had been brought against any individual member. The speaker was prepared to eliminate from the force all the inefficient members, but without charges were presented and proven nothing could be done, as the law was against removals without some legitimate cause could be substantiated. In fact the board was in a measure powerless. Personally he favored the Mayor's plan of having a chief, three sergeants and a stationmaster, and he was convinced no man on the force was better fitted for the position of stationmaster than the present chief.

Mr. Fisher said if Chief Webster was in any way incapacitated for the position of chief, he failed to see how he could satisfactorily perform the duties of stationmaster. He wanted young and active men on the force.

Mr. Hill saw no good reason for increasing the membership of the force, and suggested that too many men were on duty at the station house.

The Mayor subsequently explained in detail the plans he had formulated. He said, among other things, that with the three sergeants there would be four men on duty during the day and nine at night.

Mr. Fisher called attention to the fact that Hagerstown, Md., employed but five policemen.

Mr. Graham said there were five uniformed men in Hagerstown, but there were others who performed police duty in that place.

Mr. Fisher—"There are about 18,000 inhabitants in the place."

The Mayor observed that Hagerstown was not situated near a large city.

Mr. Hill—"It will require five policemen to watch soldiers who come to Alexandria."

Mayor Paff said there were many requests for the services of policemen in Alexandria—at weddings, entertainments, baseball games, &c. In referring to the removal of Messrs. Howson and Ticer he said he had voted with reluctance, but both were paralytics. Chief Webster, on the contrary, was well preserved physically and was clear-headed. He was, however, old and could not move about with the alacrity of past years, and, humanely speaking, could not fill his present position much longer, while he could perform the duties of stationmaster. He then referred to the proposition to lay off men, and agreed with Mr. Graham that sufficient cause would have to be given for such procedure, and law suits would be inevitable.

Mr. Fisher thought the grand jury of the Corporation Court had sufficiently defined the cause for such action. The speaker said that personally he had nothing against any man on the force.

It was suggested that Mr. Lawler was acting as a listener and not participating in the interchange of opinion. That gentleman said he hardly knew what to say. He had probably said too much at the last meeting. The speaker, however, failed to see how the Mayor's plan would remedy the troubles complained of, and he was not favorable to the election of another member of the force, although he would not antagonize the movement. There was but one clear road out of all the difficulties, and that is to have the charter creating the Board of Police Commissioners amended so as to provide for the election of policemen every two years. Undesirable men could then be weeded out bi-yearly. Mr. Lawler said in former years when Council selected policemen the city had no such things as police muddles to deal with. The election of men virtually for life is the cause of the present unfortunate conditions.

The Mayor claimed that in the olden times there had been similar troubles with the police force. Besides when Council elected the men politics entered largely into the procedure.

Mr. Lawler reiterated that the only sure safeguard from further trouble was bi-yearly elections.

The Mayor in urging his new plans said the city would incur the additional expense of but $60 a year. The position of lieutenant would be abolished altogether. The sergeants should receive $5 per month more than the privates, but by the abolition of the lieutenancy $10 per month could be saved. The speaker further said that there is likely to be more or less friction between the chief and lieutenant, while there would be less danger of trouble between a chief and sergeants. The latter could be given priority by numbering them 1, 2 and 3.

Mr. Lawler asked the Mayor to state the specific duties of a chief under the plan proposing three sergeants.

The Mayor acknowledged that this official's duties were not clearly defined, although he would be expected to be available at any time should he be needed. He would practically be his own judge concerning the duties he owed the community.

These ideas did not meet with Mr. Lawler's approval, as he evidently supposed this community too small for any dress-parade officials.

Mr. Fisher said the proposed plan amounted in substance to that in vogue.

The interchange of opinion continued, during which Mr. Lawler asked if an up-to-date chief to meet the requirements of the board could be procured for $65 a month.

Mayor Paff said Petersburg paid the chief of police $900 a year.

Many of the observations which had previously been made were threshed over, Mr. Fisher still insisting upon his motion to go into the election of a chief.

Mr. Hill—"Is there any charge against the chief?"

Mr. Fisher—"Similar charges as those urged against Messrs. Howson and Ticer."

Mr. Hill asked if Chief Webster was a paralytic. He said he is the most intelligent man on the force, but by reason of his age could not get around as easily as in previous years.

Mr. Fisher's motion had received no second and Mr. Hill seconded Mr. Graham's notion to adopt Mayor Paff's plan and it prevailed, Mr. Fisher voting no and Mr. Lawler not voting.

Mr. Fisher—"I move we adjourn."

Mr. Graham opposed immediate adjournment, and asked Mr. Lawler if he could furnish the board with the names of the witnesses who appeared before the grand jury.

Mr. Lawler—"What is your object?"

Mr. Graham—"That the charges urged by the grand jury may be investigated."

Mr. Lawler—"The grand jury has already investigated them."

Mr. Lawler then recited the salient charges made in the report.

Mr. Graham thought it was incumbent upon the board to act.

Mr. Lawler said that should he do as Mr. Graham suggested he would put himself in a bad position as a former member of the grand jury. Personally he was willing to accede to the request, but he did not know how the other members of the jury would view such a procedure. He supposed the board could summon them as citizens. "But will you [addressing Mr. Graham] vote to dismiss certain members of the force should the charges made by the jury be substantiated?"

Mr. Graham—"Yes."

Mr. Lawler—"Then let the policemen who testified before the grand jury concerning the present condition of the force be summoned before the board. Witnesses told of policy-playing, drunken policemen, &c. Get the jurymen and the policemen who testified together. It Mr. Graham is eager for action arrangements for the same can be made now."

Mr. Graham said he was anxious for an investigation of the charges.

Mr. Lawler still claimed that an examination of specific charges by the board was unnecessary. The grand jury had made sufficient examination and their report and recommendation were all that are necessary if the board really desired to act.

Mayor Paff—"In what way?"

Mr. Lawler—"Dismiss the entire force and reorganize the same." The speaker saw no trouble ahead should this be done, although he was not anxious for such a movement. There were some good and worthy men on the force; others were neither. They could be singled out. As to litigation he believed no such thing would follow, as it was apparent that the court would sustain the action of the board.

Mr. Graham believed in bringing the matter to a focus by continuing the meeting and summoning the foreman of the grand jury. If reorganization was needed it should be done at once, and unworthy men as well as those guilty of any charges removed from the police force

Mr. Lawler said Mayor Paff was before the grand jury, and he could, if he thought proper, divulge to the board what he heard in the jury room. Certain questions had been propounded to his honor and he had made statements to the jury concerning the condition of the police force.

The Mayor acknowledged that he had told the jury of variances and bickerings. He, however, had in the main told of things he had heard, and he could not base the charges.

Mr. Hill observed that should present factional troubles be laid low others would follow in the near future.

After some further discussion in which nothing new developed, on motion of Mr. Graham the board adjourned until next Monday night at which time the foreman of the grand jury will be present and an investigation of the strictures against members of the force instituted.

Recital.

Notwithstanding the incessant rain of last night the Opera House was crowded the occasion being the annual recital of the pupils of the Misses Rotchfords' class of 1905, and those who attended were fully repaid for the inconveniences suffered on account of the weather, for a more enjoyable entertainment has seldom been given in this city. The entire programme showed painstaking and great skill in the make-up of the various numbers. Among the notable features were the parasol drill and the "Gems of our Nation." Miss Blanche Rotchford delighted the audience with one of her favorite solos and was called to the footlights two or three times. Too much cannot be said of the performance of those of tender years who have been trained in the art of music by the Misses Rotchford's. "In Cupid's Garden" by Miss Gertrude Newton and Master Carlton Padgett was well received and merited the applause it won. The choruses were all of the highest order and deserve special mention while the solos and duets showed careful training and exquisite taste. Space will not permit the mention of all the different numbers, but suffice it to say that the audience was delighted all the time the recital was in progress. The scholars received beautiful bouquets from admiring friends and the Misses Rotchford each received a handsome token of esteem from the scholars, which were presented in a happy manner by Mr. Chas. P. Clevealand, of Baltimore. The music by Prof. Carlton Padgett's orchestra was much enjoyed during the intervals. Miss Edith Rotchford was the recipient of many beautiful tokens of esteem during the evening as was also Miss Blanche. These teachers may well feel proud of their classes.

An Object Lesson.

A few days ago an agent for a newspaper in another city was engaged here in canvassing for subscribers, and in a conversation with an Alexandria merchant said he had already visited 450 residences in quest of subscribers. Out of those he had entered up to that time he found that the Alexandria Gazette was taken in over four hundred of them. Of course the agent had at that time made but a partial canvass, and should he continue his labors he will doubtless discover that the Gazette is read by nearly everybody in Alexandria. The value of the Gazette as an advertising medium has ever been apparent, especially to those engaged in local pursuits. Some practical business men understand this and avail themselves of its columns in which to advertise their stocks and wares. Hence customers go from their immediate neighborhoods to different quarters of the city to inspect and purchase articles advertised by enterprising merchants. There are still some, however, who manage to move with the tide without advertising. Such would soon find themselves in the vanguard were they to use printer's ink.

The New Highway Bridge.

Colonel Leach, the engineer officer in charge of the improvement of the Potomac river, called at the War Department yesterday and made an oral report to General Mackenzie, chief of engineers, regarding the temporary suspension of work on the steel superstructure of the new Highway bridge. The work, it is understood, was stopped in consequence of the strike against the Pennsylvania Steel Company, contractors for the bridge, because of some differences with the workingmen at the plant in Pennsylvania. It is understood that several of the principal bridge building firms in the country will join forces with the Pennsylvania Steel Company in making an issue with the Union Iron Workers' Association in this case. It is alleged that the iron workers employed by the Pennsylvania Steel Company have broken their agreement with the company not to strike without first submitting to arbitration any grievances against the company that might possibly justify such action. It is on that point, it is said, that the bridge companies have decided to combine for the settlement of the present issue.

The New Ferry.

Mr. John Callahan, the general manager of the Norfolk and Washington Steamboat Company, says that the Woodbury, the first of the new steamers building at the yards of Harlan & Hollingsworth at Wilmington, Del., for service on the ferry route between this city and Washington, will be launched August 16, and within six weeks from that date she will be placed on the ferry route. The work on the boiler and engine of the new boat is well advanced and that they will be ready to be placed in position as soon as the hull is ready to receive them. The work on the second steamer will be started as soon as the one now on the stocks is launched. She will be in commission early in 1906. The Woodbury is named after Mr. Levi Woodbury, president of the Norfolk and Washington Steamboat Company. No name has yet been selected for her sister steamer.

Mr. George B. Kennedy has returned from his father's home in Westmoreland and reports his father much improved, though still very sick. His sister is also very sick.

Miss Mary Williams is quite sick at her home on north Royal street.

Rev. Berryman Green will preach at St. Paul's Episcopal Church tomorrow.

Washout.

An engine and ten freight cars were thrown down an embankment at 10 o'clock last night at Summit, about 20 miles south of Fredericksburg, on the R., F. & P. R. R. The accident was due to a landslide, caused by the recent rains. It was reported that two tramps were killed, but the railroad authorities say no one was injured by the accident. Trains on the Washington-Southern Railway passed north and south over the Chesapeake and Ohio and Southern Railways while the track was being repaired, but before noon the road was in running order again, the 11:02 south bound passenger train having passed down over its own track.

New Wharf.

A new wharf is being built in Piscataway creek near Farmington, Md., by Mr. Morton for the use of the gasoline power packet Adelaide, which is running on a route from Washington to this city and Farmington and farther down the river. Since the little steamer Harry Lodor was withdrawn from the Farmington route, several years ago, the wharves in Piscataway at which she used to land have been allowed to go to decay, and, it is stated, are not available as a boat landing. The new pier is a substantial structure and will be a great convenience to the merchants doing business in the vicinity of the creek.

The Market.

There was a fair attendance of country people and buyers in market this morning notwithstanding the inclement conditions. Prices of vegetables showed a weakening, but there were no material changes in quotations of other articles, eggs being stiffer. Cabbage, snap beans and new potatoes are plentiful and are selling very cheap. Today cabbage sold at from 40 to 50 cents a barrel; beans at 50 and 60 cents a bushel and potatoes at $1.25 and $1.50 a barrel. Home-grown tomatoes are scarce yet and sold today at $3 per crate.

Sent to Jail.

There was but one case before Justice Caton in the Police Court this morning, that of an itinerant named John Malone, who had been arrested by Officer Allen on King street last night for drunken and disorderly conduct. Malone was arrested fourteen months ago on similar charges and had been released upon promising to leave the city. He plead in extenuation this morning that he was oblivious of what occurred last night. The accused was sent to jail for ten days under the vagrant act.

Steamer to be Burned.

The old steamer Phlox, which formerly ran between the Naval Academy at Annapolis and Baltimore, is to burned for the copper that is in her. The plan is, it is understood, to put the hull on the shore away from habitations or buildings and soak it thoroughly with oil. Then the torch will be applied, and as the hull burns the metal will fall into the ashes and can easily be recovered, as the fire will not injure copper. The Phlox lay at the foot of King street for a long time.

Supposed They Were in Washington.

A gentleman and lady left the Norfolk steamer upon her arrival at this port this morning and proceeded up Prince street upon which thoroughfare they inquired of a resident the way to the National Hotel. They were told that the hostelry was about seven miles in a northerly direction. The couple supposed they were in Washington, and were greatly surprised when told they were in Alexandria.

Stolen Harness Recovered.

Mr. Scott, living at Bush Hill, Fairfax county, reported to Lieutenant Smith this morning that a set of harness was stolen from his place last Wednesday night, and he had reason to believe the stolen property was disposed of in this city. The lieutenant went to work on the case and soon found the harness in the possession of a second-hand dealer and returned the same to the owner.

Death of Mrs. Webb.

Mrs. Eliza Webb, wife of Mr. Emanuel W. Webb, died at her residence, corner of Wilkes and Payne streets, last night. The deceased was 58 years old. Mrs. Webb was for several years a nurse at the Alexandria Hospital. She was married at that institution November 24, 1885, by the late Rev. H. Suter, who was at that time rector of Christ Church, of which she was a consistent member.

Young Woman Disappears.

A young woman named Ford, about 20 years of age, mysteriously disappeared from the Gum Springs' neighborhood of Fairfax county a few days ago. She was last seen at a church festival near her home. Her disappearance is causing alarm, as on the night she vanished considerable shooting was heard in the vicinity of her parents' home.

The Bells.

To the Editor of the Alexandria Gazette:

I have seen the communication signed "Disturbed" in the Gazette of yesterday. It reminds me of the fact that when the cotton factory on north Washington street was built sixty years ago that the same objection was made by some of our citizens to the noise of the steam whistle calling the employees to work in the morning.

It is a remarkable fact that at that time nearly all the children born came into the world about daylight; and one of the leading physicians being asked about it said it was owing to the factory whistle waking the people so soon in the morning. Honi soit qui mal y pense.

Conviction Follows Trial

When buying loose coffee or anything your grocer happens to have in his bin, **how do you know what you are getting?** Some queer stories about coffee that is sold in bulk, could be told, if the people who handle it (grocers), cared to speak out.

Could any amount of mere talk have persuaded millions of housekeepers to use

Lion Coffee,

the leader of all package coffees for over a quarter of a century, if they had not found it superior to all other brands in

Purity, Strength, Flavor and Uniformity?

This popular success of LION COFFEE can be due only to inherent merit. There is no stronger proof of merit than continued and increasing popularity.

If the verdict of MILLIONS OF HOUSEKEEPERS does not convince you of the merits of LION COFFEE, it costs you but a trifle to buy a package. It is the easiest way to convince yourself, and to make you a PERMANENT PURCHASER.

LION COFFEE is sold only in 1 lb. sealed packages, and reaches you as pure and clean as when it left our factory.
Lion-head on every package.

Labor Unions Enjoined.

United States Circuit Judge Morrow in San Francisco, has granted the application of Dietrich E. Loewe & Co., of Danbury, Conn., for a temporary injunction against the California State Federation of Labor and the San Francisco Labor Council, which has been boycotting a local firm of jobbers in the hats manufactured by Loewe. The injunction pendente lite was granted on the ground that the unions had conspired not only to protect themselves, but to destroy the property and ruin the business of the complainants.

The defendants' contention was that they had employed neither force, threats nor intimidation, and had only urged upon the friends of labor the necessity of using their patronage for the benefit of labor, a constitutional right.

"But can it be truthfully said that this is all that has been done by them in enforcing the boycott? the court proceeds, and points out that this is the power of "combined numbers," and that the company is helpless "unless they surrender the management and control of their business to a labor organization.

"All employees have the right to quit their employment, but no right to combine to quit in order thereby to compel their employer to withdraw from a mutually profitable relation with a third person for the purpose of injuring the third person, when the relation thus sought to be broken had no effect whatever upon the character or the reward of their services."

Furious Fighting.

"For seven years," writes Geo. W. Hoffman, of Harper, Wash., "I had a bitter battle, with chronic stomach and liver trouble, but at last I won and" by the use of Electric Bitters. In unhesitatingly recommend them to all, and don't intend in the future to be without them in the house. They are certainly a wonderful medicine, to have cured such a bad case as mine."
